

# Community of Learners!

## Trauma-Invested Practices for Fostering Resilient Learners

### Relationship, Responsibility, and Regulation: Trauma-Invested Practices for Fostering Resilient Learners

*Using the book **Relationship, Responsibility, and Regulation: Trauma-Invested Practices for Fostering Resilient Learners**; participants will explore the following concepts:*

- Explain how to create a culture of safety in which everyone feels valued, important, and capable of learning.
- Describe the four areas of need—emotional, relational, physical, and control—that drive student behaviors and show how to meet these needs with interventions framed around the new three *Rs*.
- Illustrate trauma-invested practices in action through real scenarios that identify students' unmet needs, examine the situation from five stakeholder perspectives, and suggest interventions to support students and their families.
- Offer opportunities to challenge your beliefs and develop deeper and different ways of thinking about your role in your students' lives.

*Join us for this intentional study towards developing strategies for fostering resilient learners that will transform you and your classroom.*
